

### Figure legend

Figure 1. Mid-esophageal bicaval TEE view showing the right atrial (RA) mass protruding from the inferior vena cava into the RA. TEE: transesophageal echocardiography, LA: Left atrium, SVC: Superior vena cava, RA: Right atrium, IAS: interatrial septum

Figure 2. Live three-dimensional TEE full volume data set focused at the inferior cavoatrial junction showing the right atrial mass attached to the liver with a pedicle. TEE: transesophageal echocardiography, RA: Right atrium

Figure 3. Surgical specimen showing the solid homogenous mass with some thrombus attached to the tip
